Subject index*

A

Acinetobacter, multiply resistant, outbreak of, in surgical intensive care unit: epidemiology and control, 641
Activation, retrograde, effect of, on A-V nodal and sinus cycles, 1054
Activity, sexual, in exercising patients after myocardial infarction and revascularization, 1026
Adaptor aperture, swivel, use during suctioning to prevent hypoxemia in mechanically ventilated patient, 320
Adrenal insufficiency, acute, 603
Adults with chronic lung disease, effect of pulmonary hygiene measures on levels of arterial oxygen saturation in, 315
American Association of Critical-Care Nurses. Courses, conferences, and symposia, 46, 226, 398, 570, 744, 955
  Liaison report, 935
  News and announcements, 30, 215, 390, 563, 740, 949
  Officers, Directors, and Chapters, 173
  Position paper, 386
  President's message, 21, 207, 383, 559, 731, 929
  Staff report, 27, 211, 737
Antidiuretic hormone, syndrome of inappropriate secretion of, 469
Aperture, swivel adaptor, use during suctioning to prevent hypoxemia in mechanically ventilated patient, 320
Apoplexy, pituitary, 450
Arrhythmia monitoring system, computerized, detection of ventricular premature contractions by, 72
Arterial blood gases, importance of direct measurements of, in drug-induced methemoglobinemia, 120
  in patients after cardiac surgery, effect of endotracheal suctioning on, 1011
  oxygen saturation, levels of, in adults with chronic lung disease, effect of pulmonary hygiene measures on, 315
Artery disease, coronary, and exercise, 141
  stress testing in patient with. Part I, 1062
  introduction to risk factors in, 126
Artificial hearts, intracorporeal partial: initial clinical trials, 788
Assist device, left-heart, support of severely impaired cardiac performance with, following intracardiac operation, 622
Atrial pacing, rapid, unmasking by means of: Wolff-Parkinson-White syndrome mimicking myocardial infarction, 848
A-V block, complete, accelerated idioventricular rhythm masquerading as, 505
  conduction, study in, 852
  nodal and sinus cycles, effect of retrograde activation on, 1054

B

Balloon pumping, intra-aortic, and cardiac mechanics: programmed lesson, 1034
Basal bronchiectasis, advanced unilateral, sign in—unilateral vascular plethora, 810
Block, complete A-V, accelerated idioventricular rhythm masquerading as, 505
Blood gases, arterial, importance of direct measurements of, in drug-induced methemoglobinemia, 120
  in patients after cardiac surgery, effect of endotracheal suctioning on, 1011
Bronchiectasis, advanced unilateral basal, sign in—unilateral vascular plethora, 810

C

Cardiac mechanics and intra-aortic balloon pumping: programmed lesson, 1034
  pacing, recent developments in, 813
  patients in exercise programs, cardiopulmonary resuscitation training for, 829
  performance, severely impaired, support of, with left-heart assist device following intracardiac operation, 622
  rehabilitation in coronary care unit. Part I, 667; Part II, 861
  surgery, effect of endotracheal suctioning on arterial blood gases in patients after, 1011
Cardiopulmonary resuscitation training for cardiac patients in exercise programs, 829
Cause and treatment—hypokalemia, 854
Cerebral death: theological, judicial, and medical aspects, 477
Chest pains in young patient, 150
  trauma, nonpenetrating, papillary muscle rupture following: hemodynamic and serial echocardiographic findings and successful surgical treatment, 647
  -wall pressure therapy, continuous negative, in management of severe respiratory insufficiency, 1000
China, People's Republic of, nursing in, 980
Chronic lung disease, effect of pulmonary hygiene measures on levels of arterial oxygen saturation in adults, 315
Coma, myxedema, and thyrotoxic crisis, 435
Complications, acute myocardial infarction and, reliance on physical signs in, 1020
Computerized arrhythmia monitoring system, detection of ventricular premature contractions by, 72
Conduction, A-V, study in, 852
  intracardiac, study in, 657
Contractions, ventricular premature, detection of, by computerized arrhythmia monitoring system, 72
Control and epidemiology: outbreak of multiply resistant *Acinetobacter* in surgical intensive care unit, 641
Contusion, myocardial, prolongation of Q-T interval with, 652
Coronary artery disease and exercise, 141
  stress testing in patient with. Part I, 1062
  introduction to risk factors in, 126
  care unit, cardiac rehabilitation in. Part I, 667; Part II, 861
  effect of nursing intervention on stress factors perceived by patients in, 804
  present status of monitoring in, 67
  patients, sexual counseling of, 840
Counseling, sexual, of coronary patients, 840
Crisis, hypercalcemic, 425
  thyrotoxic, and myxedema coma, 435
Critical care, today's challenge for: trauma, 247
  unit(s), planned change in, 85
  staff involvement with families of patients in, 105

*January-February, pp. 1-180; March-April, pp. 181-364; May-June, pp. 365-532; July-August, pp. 533-704; September-October, pp. 705-900; November-December, pp. 901-1112.

Cycles, A-V nodal and sinus, effect of retrograde activation on, 1054

D

Death, cerebral: theological, judicial, and medical aspects, 477
Delivery and therapy, oxygen, in obstructive pulmonary disease, 627
Developments, recent, in cardiac pacing, 813
Device, left-heart assist, support of severely impaired cardiac performance with, following intracardiac operation, 622
Diabetic ketoacidosis, 594
Dilemma—treat or not treat, 499
Disease, chronic lung, effect of pulmonary hygiene measures on levels of arterial oxygen saturation in adults, 315
coronary artery, and exercise, 141
stress testing in patient with. Part I, 1062
introduction to risk factors in, 126
obstructive pulmonary, oxygen therapy and delivery in, 627
think Fabry's. Heart attack or stroke in young man? 1056
Disopyramide therapy, ventricular tachycardia-flutter associated with: report of three cases, 783
Drug-induced methemoglobinemia, importance of direct measurements of arterial blood gases in, 120
Duodenal ulcer, perforated, management of, 111

E

Echocardiographic, serial, and hemodynamic findings and successful surgical treatment, report of case with: papillary muscle rupture following nonpenetrating chest trauma, 647
Ectopic ventricular rhythm, study in, 123
Education, patient, vs. irresponsible journalism, 245
Electrocardiographic masquerade, 323
Emergency(ies), endocrine and metabolic—overview, 423
room nurse and suicide prevention, 101
Endocrine and metabolic emergencies—overview, 423
Endotracheal suctioning, effect of, on arterial blood gases in patients after cardiac surgery, 1011
Epidemiology and control: outbreak of multiply resistant *Acinetobacter* in a surgical intensive care unit, 641
Evacuation and early care of trauma patient, 249
Exercise and coronary artery disease, 141
programs, cardiopulmonary resuscitation training for cardiac patients in, 829
stress testing in patient with coronary artery disease. Part I, 1062
Exercising patients, sexual activity in, after myocardial infarction and revascularization, 1026

F

Fabry's disease. Heart attack or stroke in young man? 1056
Factor(s) No. 1, risk—obesity, 132
potent risk—hypertension, 137
risk, in coronary artery disease, introduction to, 126
smoking as, 145
stress, perceived by patients in coronary care unit, effect of nursing intervention on, 804
Family(ies) of head injury patients, effects of written and verbal instructional methods on: perceptions of nursing care, 306
Family(ies)—cont'd
involvement, effect of, on patients' manifestations of postcardiotomy psychosis, 995
of patients in critical-care units, staff involvement with, 105
Fibrillation, ventricular, in Wolff-Parkinson-White syndrome, type A, 1015
Flutter-tachycardia, ventricular, associated with disopyramide therapy: report of three cases, 783
Fright stress, heart rate response to, 1006
Future trends in pacing, 781

G

Gases, arterial blood, importance of direct measurements of, in drug-induced methemoglobinemia, 120
in patients after cardiac surgery, effect of endotracheal suctioning on, 1011
Goal, a common, toward, 978

H

Head injury patients, effects of written and verbal instructional methods on families of: perceptions of nursing care, 306
Heart(s) assist device, left-, support of severely impaired cardiac performance with, following intracardiac operation, 622
attack or stroke in young man? Think Fabry's disease, 1056
intracorporeal partial artificial: initial clinical trials, 788
penetrating wounds of, 262
procedures, open-, rehabilitation for hospitalized adults after: team approach, 834
rate response to "fright stress," 1006
surgery, open-, phases of recovery from, 987
patients, open-, recovery of, and preoperative information, 486
Hemodynamic and serial echocardiographic findings and successful surgical treatment, report of case with: papillary muscle rupture following nonpenetrating chest trauma, 647
Herpetic whitlow: occupational hazard for nursing personnel, 645
Hormone, antidiuretic, syndrome of inappropriate secretion of, 469
Hygiene measures, pulmonary, effect of, on levels of arterial oxygen saturation in adults with chronic lung disease, 315
Hypercalcemic crisis, 425
Hyperglycemia, insulin-induced posthypoglycemic: Somogyi phenomenon, 463
Hypertension—potent risk factor, 137
Hypoglycemia: spectrum of problems, 455
Hypokalemia—cause and treatment, 854
Hyponatremia, 587
Hypoxemia in mechanically ventilated patient, use of swivel adaptor aperture during suctioning to prevent, 320

I

Idionodal (nonparoxysmal) tachycardia, case of, 1053
Idiopathic and thrombotic thrombocytopenic purpura, 327
Idioventricular rhythm, accelerated, masquerading as complete A-V block, 505

Impaired cardiac performance, severely, support of, with left-heart assist device following intracardiac operation, 622
Infarction, acute myocardial, and its complications, reliance on physical signs in, 1020
masquerading myocardial, 334
myocardial, and revascularization, sexual activity in exercising patients after, 1026
Wolff-Parkinson-White syndrome mimicking: unmasking by means of rapid atrial pacing, 848
Infection in trauma patient: major deterrent to good recovery, 257
Information, preoperative, and recovery of open-heart surgery patients, 486
Injury(ies), intraperitoneal, 273
patients, head, effects of written and verbal instructional methods on families of: perceptions of nursing care, 306
Instructional methods, written and verbal, effects of, on families of head injury patients: perceptions of nursing care, 306
Insufficiency, acute adrenal, 603
respiratory, continuous negative chest-wall pressure therapy in management of, 1000
Insulin-induced posthypoglycemic hyperglycemia: Somogyi phenomenon, 463
Intensive care unit, surgical, outbreak of multiply resistant *Acinetobacter* in: epidemiology and control, 641
Interval, prolonged Q-T, case of, 846
Q-T, prolongation of, with myocardial contusion, 652
Intra-aortic balloon pumping and cardiac mechanics: programmed lesson, 1034
Intracardiac conduction, study in, 657
operation, support of severely impaired cardiac performance with left-heart assist device following, 622
Intraperitoneal injuries, 273
Invasive pressure monitoring, system for maintaining, 610
Ischemic myocardium, effects of oxygen on, 635

J

Journalism, irresponsible, patient education vs., 245
Judicial, theological, and medical aspects: cerebral death, 477

K

Ketoacidosis, diabetic, 594

L

Lesson, programmed: intra-aortic balloon pumping and cardiac mechanics, 1034
Letters to editors, 341, 508, 671, 865, 1066
Levels of arterial oxygen saturation in adults with chronic lung disease, effect of pulmonary hygiene measures, 315
Lung disease, chronic, effect of pulmonary hygiene measures on levels of arterial oxygen saturation in adults, 315
and venous system, 91

M

Manifestations, patients', of postcardiotomy psychosis, effect of family involvement on, 995
Measurements, direct, of arterial blood gases, importance of, in drug-induced methemoglobinemia, 120
Measures, pulmonary hygiene, effect of, on levels of arterial oxygen saturation in adults with chronic lung disease, 315
Mechanical ventilation, assisted, modified with positive end-expiratory pressure, nursing implications in care of patients treated with, 299
Mechanics, cardiac, and intra-aortic balloon pumping: programmed lesson, 1034
Medical, theological, and judicial aspects: cerebral death, 477
Metabolic and endocrine emergencies—overview, 423
Methemoglobinemia, drug-induced, importance of direct measurements of arterial blood gases in, 120
Methods, written and verbal instructional, effects of, on families of head injury patients: perceptions of nursing care, 306
Monitoring, invasive pressure, system for maintaining, 610
present status of, in coronary care unit, 67
system, computerized arrhythmia, detection of ventricular premature contractions by, 72
Mortis delusio, postoperative, and present, 977
Muscle rupture, papillary, following nonpenetrating chest trauma: report of case with hemodynamic and serial echocardiographic findings and successful surgical treatment, 647
Myocardial contusion, prolongation of Q-T interval with, 652
infarction, acute, and its complications, reliance on physical signs in, 1020
masquerading, 334
and revascularization, sexual activity in exercising patients after, 1026
Wolff-Parkinson-White syndrome mimicking: unmasking by means of rapid atrial pacing, 848
Myocardium, ischemic, effects of oxygen on, 635
Myxedema coma and thyrotoxic crisis, 435

N

Nodal and sinus cycles, A-V, effect of retrograde activation on, 1054
Noncardiac thoracic trauma, management of, 286
Nonparoxysmal (idionodal) tachycardia, case of, 1053
Nurse, emergency room, and suicide prevention, 101
Nursing care, perceptions of: effects of written and verbal instructional methods on families of head injury patients, 306
implications in care of patients treated with assisted mechanical ventilation modified with positive end-expiratory pressure, 299
intervention, effect of, on stress factors perceived by patients in coronary care unit, 804
in People's Republic of China, 980
personnel, occupational hazard for: herpetic whitlow, 645
perspective—prehospital care, 253
research, exploratory, for prescribing patient care, 295
Nutritional requirements of trauma patient, 278

O

Obesity—risk factor No. 1, 132
Obstructive pulmonary disease, oxygen therapy and delivery in, 627
Occupational hazard for nursing personnel: herpetic whitlow, 645

Open-heart procedures, rehabilitation for hospitalized adults after: team approach, 834
surgery patients, recovery of, and preoperative information, 486
phases of recovery from, 987
Operation, intracardiac, support of severely impaired cardiac performance with left-heart assist device following, 622
Oxygen, effects of, on ischemic myocardium, 635
saturation, arterial, levels in adults with chronic lung disease, effect of pulmonary hygiene measures on, 315
therapy and delivery in obstructive pulmonary disease, 627

ectopic ventricular, study in, 123
reciprocal, study in, 494
Risk factor(s) in coronary artery disease, introduction to, 126
No. 1—obesity, 132
potent—hypertension, 137
smoking as, 145
Rupture, papillary muscle, following nonpenetrating chest trauma: report of case with hemodynamic and serial echocardiographic findings and successful surgical treatment, 647

S

Saturation, arterial oxygen, levels in adults with chronic lung disease, effect of pulmonary hygiene measures on, 315
Secretion, inappropriate, of antidiuretic hormone, syndrome of, 469
Sexual activity in exercising patients after myocardial infarction and revascularization, 1026
counseling of coronary patients, 840
Sign(s) in advanced unilateral basal bronchiectasis—unilateral vascular plethora, 810
physical, reliance on, in acute myocardial infarction and its complications, 1020
Sinus and nodal cycles, A-V, effect of retrograde activation on, 1054
Smoking as risk factor, 145
Somogyi phenomenon: insulin-induced posthypoglycemic hyperglycemia, 463
Staff involvement with families of patients in critical-care units, 105
Stress factors perceived by patients in coronary care unit, effect of nursing intervention on, 804

Stress—cont'd
fright, heart rate response to, 1006
testing, exercise, in patient with coronary artery disease. Part I, 1062
Stroke or heart attack in young man? Think Fabry's disease, 1056
Suctioning, endotracheal, effect of, on arterial blood gases in patients after cardiac surgery, 1011
to prevent hypoxemia in mechanically ventilated patient, use of swivel adaptor aperture during, 320
Suicide prevention and emergency room nurse, 101
Surgery, cardiac, effect of endotracheal suctioning on arterial blood gases in patients after, 1011
open-heart, phases of recovery from, 987
patients, open-heart, recovery of, and preoperative information, 486
Surgical intensive care unit, outbreak of multiply resistant *Acinetobacter* in: epidemiology and control, 641
treatment, successful, and hemodynamic and serial echocardiographic findings, report of case with: papillary muscle rupture following nonpenetrating chest trauma, 647
Swivel adaptor aperture, use of, during suctioning to prevent hypoxemia in mechanically ventilated patient, 320
Syncope, quinidine, without quinidine, 779
Syndrome of inappropriate secretion of antidiuretic hormone, 469
Wolff-Parkinson-White, mimicking myocardial infarction: unmasking by means of rapid atrial pacing, 848
type A, ventricular fibrillation in, 1015
System, computerized arrhythmia monitoring, detection of ventricular premature contractions by, 72
for maintaining invasive pressure monitoring, 610
venous, and lung, 91

T

Tachycardia-flutter, ventricular, associated with disopyramide therapy: report of three cases, 783
idionodal (nonparoxysmal), case of, 1053
primary ventricular, 69
Team approach: rehabilitation for hospitalized adults after open-heart procedures, 834
Testing, exercise stress, in patient with coronary artery disease. Part I, 1062
Theological, judicial, and medical aspects: cerebral death, 477
Therapy, continuous negative chest-wall pressure, in management of severe respiratory insufficiency, 1000
and delivery, oxygen, in obstructive pulmonary disease, 627
disopyramide, ventricular tachycardia-flutter associated with: report of three cases, 783
respiratory, what good is? 659
thrombolytic, current status of, 97
Thoracic trauma, noncardiac, management of, 286
Thrombocytopenic purpura—idiopathic and thrombotic, 327
Thrombolytic therapy, current status of, 97
Thrombotic and idiopathic thrombocytopenic purpura, 327
Thyrotoxic crisis and myxedema coma, 435
Training, cardiopulmonary resuscitation, for cardiac patients in exercise programs, 829
Trauma, noncardiac thoracic, management of, 286
Trauma—cont'd
nonpenetrating chest, papillary muscle rupture following: report of case with hemodynamic and serial echocardiographic findings and successful surgical treatment, 647
patient, evacuation and early care of, 249
infection in: major deterrent to good recovery, 257
nutritional requirements of, 278
today's challenge for critical care, 247
Treat or not treat—dilemma, 499
Treatment and cause—hypokalemia, 854
successful surgical, hemodynamic and serial echocardiographic findings, report of case with: papillary muscle rupture following nonpenetrating chest trauma, 647
Type A Wolff-Parkinson-White syndrome, ventricular fibrillation in, 1015

U

Ulcer, perforated duodenal, management of, 111
Unit(s), coronary care, cardiac rehabilitation in. I, 667; II, 861
effect of nursing intervention on stress factors perceived by patients in, 804
present status of monitoring in, 67
critical care, planned change in, 85
staff involvement with families of patients in, 105
surgical intensive care, outbreak of multiply resistant *Acinetobacter* in: epidemiology and control, 641

V

Vascular plethora, unilateral—sign in advanced unilateral basal bronchiectasis, 810
Venous system and lung, 91
Ventilated patient, mechanically, use of swivel adaptor aperture during suctioning to prevent hypoxemia in, 320
Ventilation, assisted mechanical, modified with positive end-expiratory pressure, nursing implications in care of patients treated with, 299
Ventricular fibrillation in Wolff-Parkinson-White syndrome, type A, 1015
premature contractions, detection of, by computerized arrhythmia monitoring system, 72
rhythm, ectopic, study in, 123
tachycardia-flutter associated with disopyramide therapy: report of three cases, 783
primary, 69
Verbal and written instructional methods, effects of, on families of head injury patients: perceptions of nursing care, 306

W

Whitlow, herpetic: occupational hazard for nursing personnel, 645
Wolff-Parkinson-White syndrome mimicking myocardial infarction: unmasking by means of rapid atrial pacing, 848
type A, ventricular fibrillation in, 1015
Wounds, penetrating, of heart, 262
Written and verbal instructional methods, effects of, on families of head injury patients: perceptions of nursing care, 306
